Daniel how did you come across this book? Is it well known?

As far as I know, the book is not well known.

I had downloaded it - together with other titles, such as "Elemental Epicureanism" 😊 - on my kindle, a couple of months ago. I must have found the title intriguing, maybe because it comes from a perspective which is not mine at all. I had started to read but found it boring.

Anyway, a few days ago I saw that Hiram made a reference to the book on FB, and that encouraged me to pick it up again.
