

# Demetrius Lacon - Main Biography

Post by "Bryan" of November 27, 2023 at 5:23 PM

[Quote from Pacatus](#)

Once the function collapses, the superpositional state will become either A or  $\sim A$

Yes, their "collapse" occurs when their math tries to support reality!

(As we know, we have infinite worlds but they cannot be in the same place at the same time.)
