

Pleasure And Pain Modeled With Math

Post by "Godfrey" of December 5, 2023 at 1:18 AM

Does anybody recall where the phrase "hedonic calculus" was first used? It seems to me that a later Epicurean (Philodemus?) used it, but I can't put my finger on it. I'm curious as to what the original Greek (?) words were and what exactly they might infer. IDK whether or not that would be pertinent here, but I just want to add it to the mix.
