The eminent heads of Italy were discussing around the welcoming table of Medici for the purpose to reconcile Plato and Jesus. They were dreaming of a religion that unites Christian morality and Greek Philokalia. For all this world, after Alexandrian era, Epicurus was a scandal, such a scandal was for being someone reasonable and to believe in the things that catches with his hands and the right judgments of his conclusions. Epicurus contemporaries were buried him already under calumny, slander and filthy perversions. His extensive work was neglected, lost and we owe in luck the few precious pieces that survived. Hidden for centuries like a spark in ashes were helpful as tinder when the crew of time arrived. The research and understanding have renovated his luminous figure, his genuine Greek figure, and inspired by his luminous physiognomy we restore the antiquity as it was in reality.
