That looks great Nate! I don't see a button where a printed version can be purchased but I presume that you are working on that?

I am, indeed! There was an additional issue with the printing after I received it, so I unpublished the paperback and am working with Amazon to fix the formatting issues. I am hoping to resolve it today, if not by this weekend.

I am pleased to announce that the paperback version of *The Hedonicon* is now available:
