

Forum Upgrade Issues and Downtime 12/28/23

Post by "Cassius" of December 29, 2023 at 3:07 AM

Yesterday we had a failed attempt to upgrade to the latest software package that runs the forum, and unfortunately several posts were lost. We're back up now and running normally, and this time I will take additional precautions to schedule this at a time of low usage and to ensure data is not in jeopardy.

Apologies to anyone who lost data - if you see any additional impact from the incident please post in this thread.
