"The overview is often needed but the details we only need occasionally" - and this is an excellent overview!

When I see such good productions as this, I think of page 1 of the 830 page *Oxford Handbook of Epicurus and Epicureanism* which says "...contemporary philosophers continue to churn out article after article of increasing sophistication defending or (mostly) attempting to refute Epicurus's arguments about the harmlessness of death. [...] I imagine many professional scholars may sometimes feel that their contributions somehow lack the immediate visceral appeal of those flashier productions of true believers touting Epicureanism as a cure for everything [...] it is doubtful that many of the scholars in this volume write as believers..."
