

New Style Worth Checking Out - Foxhole

We also added today a new style - Foxhole - which may be worth your time to check out.

It has light and dark versions (selectable in the user control panel at the top right by using the control panel dropdown and then selecting "Settings And Privacy").

Right now the basic "Foxhole" has an orange coloring for the links, and the "Foxhole Blue" has blue throughout. If someone wants red or green we can set up that option as well.

Let us know if you have any issues with it.
