

Discussion of New Substack Article: "A Gate To Be Burst: Absence of Pain"

Post by "Bryan" of February 12, 2024 at 5:59 PM

[Quote from Kalosyni](#)

...the areas of active pleasure in my body have been limited to specific places and to specific times. Most of the time, most parts of my body are not feeling [stimulative] pleasure.

That is true. Which is fortunate-- because such pleasure is only felt as a relief from pain.

This is also true: We feel total pleasure in most parts of our body, most of the time.
