

Charles Darwin

Post by “Eikadistes” of February 13, 2024 at 1:23 PM

[Quote from Cassius](#)

Do we actually know that Darwin was either an explicit fan of, or quoted, Epicurus?

His grandfather, Erasmus Darwin, was **positively** *Lucretian* in his allegiances. Charles seems to have adopted a number of Epicurean propositions from his grandfather, but he did not identify as an explicit Epicurean or Lucretian in the tradition of the Garden.
