

Epicurean Views On Hierarchy In Social Structures

Post by “Don” of March 16, 2024 at 8:04 AM

[Quote from Peter Konstans](#)

or made any sort of exhortation about how people should best govern themselves

They did have thoughts on how those who govern should act.

There's a missing book of Epicurus titled Of Kingship.

Philodemus wrote On The Good King According to Homer.

There were Epicurean advisors to kings.

It seems to me they had specific ideas on how to govern but they would rather advise rulers than rule themselves.
