

Status Update on EpicureanFriends Forum Technology And Use

Post by "Cassius" of May 6, 2024 at 8:40 AM

Time for a status update to see if anyone is having any issues or if there are things which need improvement:

1. Anyone have any problems to report in their use of the forum?
2. Any issues on desktop or mobile sizes?
3. Any issues with the themes?
4. Any features you would like to see added?
5. Any other general comments or suggestions?

I have to say that I think things are operating pretty smoothly at the moment, and I am not aware of any major issues. Seems like for me sometimes the notifications don't take me to the most recent new post, a problem that was reported earlier and may not yet be fully resolved. But generally things seem to be operating smoothly.

Can't promise to be able to address all suggestions immediately, but can't even consider them if we don't know what they are. So please feel free to let us know if there are any issues and we will see what we can do to address them over time.

Thanks for your participation at EpicureanFriends.com!
