

Forum Categories Update

Post by “Kalosyni” of May 29, 2024 at 8:46 AM

[Quote from Cassius](#)

At the moment I think we should enforce a limit of 15 categories in any single forum list, and if we get up to 15 we combine one or more of the others so that the number never gets higher than 15.

But it's possible that it would be better for the number to be 10 or less.

[Don](#) We need your help!!

I take the stand that setting a specific number like that will lead to problems with correctly filing things.
