

PD26 - Does PD26 imply personal responsibility beyond oneself?

I will add also that as far as the translation goes "if they seem to produce harm" would have to be read "more pain than pleasure" to be consistent with the rest of the philosophy. But that caveat wouldn't change my view that the "more pain the pleasure" that is being discussed is to "yourself and your friends" rather than "more pain than pleasure to all possible people and animals anywhere in the world."
