

# Epicurean versus deceptive (“modern”) Stoic decision making

Post by “Martin” of August 13, 2024 at 1:55 AM

Quote

Do we all agree that "to desire sth" is an "atom of experience" just like "feels warm" is, too, meaning both are indivisible and not made up of smaller, lower-level, more fine-grained units of experience?

I agree, at least in the sense that I am not aware of a meaningful way to compose a desire of smaller units.
