

Welcome PGannon!

Post by “Patrikios” of September 13, 2024 at 3:48 AM

Hello, Friends of Epicurus.

Thanks to Cassius for the forum on-boarding assistance.

My interest in this forum is to continue learning more about the teachings of Epicurus. I am interested in understanding the Ethics and how to apply them daily. I enjoy the discussions on Lucretius Today podcast every week. I try to listen to them on the weekend, for my Sunday ‘sermon’, and contemplation.

The Physics of Epicurus I am finding is fascinatingly prescient as current Quantum Field Theory & Quantum Gravity theory are providing the scientific revealing from Nature.

I look forward to continuing my education through this forum and the wealth of resources here.

Patrick (Patrikios for my Greek friends)
