

# **Can you be an epicurean and use some logic with the senses?**

**Post by “Mousikos” of May 15, 2019 at 6:50 AM**

I must disagree with Philodemus here. There is a plenty of research showing the healing power of music, regardless of the absence or presence of words. Music heals because it speaks to our emotions, and this can have a positive effect on our physical body.

I'm not saying that music can replace philosophy, and if he was simply talking about the function of philosophy, as giving a deeper understanding, then I could agree.
