

Emily Austin Seems To Think That Sex Is An Extravagant Pleasure aka natural but unnecessary. Do you agree?

I don't know, as a teenager I was told sex is this amazing thing. Yes it's very pleasurable but it's never as good as the desire and sex drive make it out to be. In a lot of ways, it's very disappointing.

People seem to make sex their lifestyle, however how many deal with self disgust and distress at lack of self control? How many people these days, who in a non religious context talk about "no fap" aka no masturbation or sex..

Now obviously some people experience sex that they claim is very pleasurable, I'm not prescribing anything but it seems to me for a lot of people, men and women, sex is a lot of the time disappointing and leads to more pain in the end.

This is in no way a recommendation of continence. As Cassius said, a 18 year old is going to have a very different experience of sex and sex drive then a 30 year old (me) or 60+(Cassius) etc..
