

Episode 246 - Cicero's OTNOTG 21 - Examining Epicurean Evidence-Based Reasoning

Post by “Bryan” of September 19, 2024 at 9:59 AM

When thinking about things we can't see or sense, we should base our ideas on what we can see and sense, and make sure they match.

Or maybe:

When we try to understand things we can't see, we should use what we know about things we can see and make sure our ideas fit together.
