Should I try to create and post Epicurean memes on social media?

I would love to see more Epicurean memes. I post a fair amount in the gallery here, and you'll find plenty on Epicurean memes for hedonistic beings (@EpicureanMemes) on Facebook, and a handful on the r/Epicurean_Philosophy page on Reddit. The more, the merrier!

I ran a search for "Epicurean" to see if there are any such blogs on Substack, and all of the ones I could find with the word "Epicurean" in the title were food blogs!

[Hiram](#) shares his essays from the *Society of Friends of Epicurus* on Substack <<https://hiramcrespo.substack.com>> ultimately hosted at <<https://societyofepicurus.com>>. There are a number of sites out there that provide educational resources, but I am unfamiliar with other blogs that regularly publish essays. The Lucretius Today podcast definitely fills that audio void!
