

Maslow's hierarchy of needs

Post by “Kalosyni” of November 22, 2024 at 3:08 PM

This is interesting (from that link):

Quote

Problems With the Pyramid

One interesting fact to note is that Maslow himself never presented his theory as the famous pyramid with which we are all familiar. He did not view these needs as levels or stages you reach before moving on to the next. Maslow instead believed that people move within the hierarchy and that we are often driven by multiple needs simultaneously.
