

Lecture on practical application of Epicureanism

Post by “Kalosyni” of November 26, 2024 at 2:53 PM

[Quote from TauPhi](#)

Accusation that he's cherry picking makes no sense. This lecture is exactly about cherry picking.

The antidote to cherry picking is making a personal outline AND that outline needs to be backed up with references to specific quotes in specific texts.

In this video he makes statements that are not backed up by specific quotes from the texts.

Every person should study the textual sources themselves rather than take anyone's interpretation (even a professor's interpretation).
