

Atoms Make Up the Human Psyche

Post by “Don” of November 27, 2024 at 2:01 AM

[Quote from Root304](#)

That is one dread that I still have to shake myself of.

No way I want to be "uploaded"! My question, immediately upon someone mentioning that kind of thing, is "Who owns the computer? Who built the software?" Once I would be a series of bits on someone else's quantum computer, they could rearrange me or upload any apps to my psyche that they wanted. No thank you!
