

Episode 259 - Nothing Comes From Nothing

Post by "Cassius" of December 23, 2024 at 4:08 PM

Quote from Page 191 of the article

3. The Epicurean Position

For the Epicureans, both issues (1) and (2) in Section 2 were objectionable. Issue (1) was perhaps the reason why mathematics was not part of the Epicurean curriculum, as it did not accord with Epicurean empiricism.

At risk of getting drawn in too far when I should be doing other things (which I suspect is the real objection), what are "issues 1 and 2 in Section 2".....?
