Austin on this site I've tried to provide links to the major texts here:

Image not found or type unknown

[Core Texts - Epicureanfriends.com](http://www.epicureanfriends.com)

www.epicureanfriends.com

However I still refer at times to my older set of links here, and I may not have transferred them all over to the new format:

[Library - NewEpicurean](#)

Many of the people here have links to other material that I haven't incorporated, so if you're looking for something in particular please let us know.
