[AxA](#) I'm mulling over some parts of your pamphlet, which is generally good, yet probably I would phrase some of the subtitles differently (personal preference).

Some thoughts regarding VS04 translation, which can vary depending on the translator...especially the phrase "easy to disregard"... [Don](#) maybe you can help to check what the ancient Greek words are in this??? ...ancient Greek over at [monadnock.net](http://monadnock.net)

“Every pain is easy to disregard; for that which is intense is of brief duration, and those bodily pains that last long are mild.” [VS4]
