

Wikipedia

Post by “Don” of April 16, 2025 at 6:24 AM

The Wikipedia article is a *mess*. If you have the time to edit with supporting citations, go for it. I've been editing Wikipedia off and on for - checks userpage - *yikes!* - 15+ years, but haven't had the chance or inclination to wade into the potential edit battles that would ensue in trying to steer that specific article into a better direction.
