

# Must an Epicurean believe in gods?

Post by "Cassius" of April 16, 2025 at 7:11 PM

LOL --

I am referring to the point that just as our own medical technology is extending our life spans (or maybe I should say it USED to be doing that) I see no theoretical limit to how far an advanced civilization /species could extend its own life spans.

Naturally, of course!

Sorry it has been a busy day!
