

# Diogenes Laertius Book X - public domain translations

**Post by “TauPhi” of April 22, 2025 at 1:37 PM**

[Cassius](#) Can you upload version 1.0.2 to the filebase for me? It seems I don't have permission to do it myself.

Changes:

- fixed the alignment in sections 101/102 for Bailey's translation (thanks to [Bryan](#) for noticing the misalignment)
- added Sources section at the end containing comprehensive list of websites used for the creation of the document
