[Quote from Eikadistes](#)

EUDEMUS (4th - 3rd-century BCE) mentioned in a letter written by Epicurus

Do we know anything else about this particular Eúdēmos ?

There was a man named Eúdēmos [of Pergamon] who wrote commentaries on Epíkouros' work On Nature. However, he was a teacher of Philōnídēs of Laodíkeia (and therefore was active around 180 BC) - so he could not have been the recipient of letters from Epíkouros.
