

# Why pursue unnecessary desires?

Thinking about "natural and unnecessary"...(natural **but** unnecessary is another way to think about it):

You need a jacket to keep warm but it doesn't matter what it looks like.

Unnecessary for it to be a new jacket.

Unnecessary for it to be "in fashion" or a particular style.

Unnecessary for it to be a certain type of fabric or color.

And, a blanket could keep you warm if you don't have a jacket, but a jacket is easier to wear because it won't fall off.
