

# Why pursue unnecessary desires?

Post by "Cassius" of May 7, 2025 at 7:52 PM

Yes Don it's time to reinforce that and confirm that we count to three rather than four. I seem to remember Cicero questioning this in On Ends, and perhaps Aulus Gellius defends Epicurus, on the same point:

- 1 - Natural and Necessary
- 2 - Natural but not Necessary
- 3 - Necessary but not Natural ???????
- 4 - Neither Natural Nor Necessary
