□ as the symbol of the philosophy of Epicurus

I love the pig woodcut design as artwork. Epicurus' bust is great as artwork.

But you have to hand it to the major religions for having easy to spot, easy to draw symbols:

☦☪☯☸□□□□✡✝□□

That's what we're looking for.

Getting people to agree and use it, that's a whole other kettle of fish.

There are things like the leaping piglet silhouette, Eikadistes ' 20er moon, graphic representations of the Epicurus bust, etc. But for sheer basic graphic symbols, ya gotta hand it to the cross, crescent, Star of David, et al.
