

Analysing movies through an Epicurean lens

Post by “Godfrey” of May 14, 2025 at 1:22 AM

Of course there are different genres, subjects, moods &c of movies, and innumerable but not infinite choices of what to watch. Too, one can enjoy the design, the cinematography, the music, the sound design, the special effects and the computer generated effects and, of course the nuance of the acting and the structure of the writing among other things. A wealth of pleasures are waiting to be had, if one chooses wisely.
