

# The Definitive "Are Beavers Born With The Innate Disposition To Build Dams, Or Do They Learn It From Older Beavers?" Thread

Post by "Bryan" of June 26, 2025 at 3:41 PM

I think of a prolepsis as a 'mental sense' -- what comes to mind when you think of something.

Just as you use your eyes to look at a tree, you use this mental sense to *begin* thinking about a tree.

You can use your eyes to look at a statue of a unicorn -- and you have an anticipation in your mind of what a unicorn should look like.
