

Epicurus' Prolepsis vs Heraclitus' Flux

Post by "Cassius" of July 6, 2025 at 4:18 PM

[Quote from Rolf](#)

Fascinating! Does this mean that we as Epicureans would be wise to align ourselves with modern scientific understanding, adopt this view as the most probable explanation, and ditch the Epicurean view on static atoms and void

I don't think Bryan meant to imply that, If following dominant interpretations were always a good idea, Epicurus would have accepted intelligent design for his physics and we would all be Abrahamists today! ☐
