

News And Announcements Box Added To Front Page

Post by "Cassius" of July 7, 2025 at 10:32 AM

Today we're adding a "News and Announcements" box to the front page. It will display the last 30 days worth of "News/Announcements" threads that have been posted by a moderator/admin. We intend to use this box to keep people up to date on site activities. The box points to a normal forum, so new posts in this box will generate a "red dot" on your notifications just like any other thread.
