[Quote from Eikadistes](#)

"to which of the implied subject(s)/object(s) do the articles/pronouns refer?"

I am not seeing a reference to fears. I am seeing "...but whenever **what must happen (τὸ χρεών)** leads us out: having greatly spat on life and on those who cling to it in vain, we go out of life..."

*(Although, of course, τὸ ζῆν is more "living" than "life")*
