

# Welcome Hubblefanboy!

**Post by “Hubblefanboy” of August 16, 2025 at 11:04 AM**

Hi, sorry for the delay, I've been busy. I love Epicureanism because I think it's a solid, realistic, and useful philosophy. I'm interested in the whole concept: the canon, the physics, and the ethics. What I like most about this website is undoubtedly the wiki. I read a blog post about Epicurus's main doctrines, which is my primary training, along with introductions in textbooks, wikis, and other media.
