

Episode 295 - Plutarch's Absurd Interpretation of Epicurean Absence of Pain

Post by "Cassius" of August 22, 2025 at 8:02 AM

I have never previously tracked down DeWitt's reference to the P.E. More criticism, but More's book is on Archive.org and here is the relevant section in greater detail. It is very interesting and I think very helpful to read through this kind of strong denunciation of Epicurus. I am going through the full section and will post it here because it amplifies the reasoning that Don and I discussed in the podcast and which Rolf is asking about.
