

An Epicurean Podcast

Post by “Martin” of July 5, 2019 at 8:26 PM

This podcast and the voice are excellent. The project is good.

I am a visual learner, especially from diagrams and text, less from photos (unless they are evidence for my work in failure analysis), so I rather avoid listening to podcasts. Even video clips are usually rather a diluted distraction than useful for me. Nevertheless, I will be happy to occasionally contribute again a podcast to Epicurean Radio.
