

A Lucretius Today AI Experiment: AI Summaries Of Two Lucretius Today Podcast Episodes

Post by “Cassius” of August 27, 2025 at 1:25 PM

Yep Dave it's amazing. It apparently had no problem understanding the audio, and then it found the major points and summarized them sometimes with more clarity than the original. It definitely didn't track 100%, and it also introduced some details that we did not talk about, but you'd have to think that this kind of summary would be better than many people could do even at college level and only then after many hours of work.

Lots of food for thought.
