

My Epicurean plans for 2018

Post by “brett” of January 7, 2018 at 2:16 PM

For what it's worth, I completely agree with the direction away from Facebook. I find it a very challenging environment to have meaningful interaction and then be able to review meaningful threads post facto. In fact, this AM I was trying to save all the responses to my question about work stress and was very frustrated.

Looking forward to learning more and hopefully providing meaningful input myself as I do.

Best,

Brett
