

Brochure / Leaflet / Handout - Current Info Thread

Post by “Cassius” of October 15, 2025 at 11:33 AM

This is an old topic but it comes up regularly, and we need a summary of where we are on this. At the time of this writing (and I will update this pinned post) probably the best existing handouts in PDF form suitable for printing are:

1. [AxA's general brochure in PDF](#)
2. [Kalosyni's general brochure](#)
3. [Al Hakiim's general brochure](#)

I know that we have others, and i need to go through the older posts in this forum and find them and add them here. We need many more than one option, so they can be selectively used according to circumstance. If you know of one that needs to be highlighted here please post in this thread and I'll update this pinned post.
