

Hypotheticals: Would An Epicurean Hook Himself Up To An "Experience Machine" or a "Pleasure Machine"?

I would go further in saying the "experience machine" hypothetical in all its forms is NOT about choosing pleasure over pain/reality, it's about choosing reality for the *promise* of a blissful alternative existence. The person/entity offering the experience machine is *promising* you pleasure, an alternative experience from the one you're living now filled with your subjective pleasure. You have no way of evaluating those claims -- until you're hooked up.
