

A Draft Epicurean Pleasure Maximization Worksheet

Post by “Cassius” of July 13, 2019 at 2:13 PM

I have attached to the original post in this thread an xls / Libreoffice Calc version of the spreadsheet which should be usable in any spreadsheet software. I prepared it in the free Libreoffice format so that it would be accessible to the most people. I will see about uploading this back to Google docs as well.

This should be the same document, in Google Sheets -
