

Ancient Greek Homes

Post by “kochiekoch” of January 14, 2026 at 9:40 PM

During the chat tonight it came up what Epicurus' house in Athens might have looked like. This video shows how they were laid out, in ancient times, from a basic working-class house to an upper middle-class house, which might be similar to Epicurus' place.

I wouldn't have thought his place would have a courtyard, but I understand most of them did. Taking advantage of Greece's beautiful weather.
