

Thomas Nail - Returning to Lucretius

Post by "Eikadistes" of January 16, 2026 at 9:19 PM

Overwhelmingly, I find that Lucertius' neologisms compliment the insight of Epicurus. Referring to particles as "firstlings" is a great example. I actually think that he could have even added a few others, but, in general, I think his translation is a true homage to the source.
