

What Is The Relationship Between "Hedonic Calculus" Analysis" and "Natural and Necessary Desire" Analysis?

Post by "Cassius" of January 23, 2026 at 4:25 PM

I am unable to find an academic article on point, but I am sure that my searching is incomplete. Desire and Pleasure are such common topics that references to the point could be made any number of places, but we're looking for something very specific to the effect that Epicurus was looking at the topic differently from Plato and/or others. I'll keep looking!
