

Revisiting Issues of The Use of AI in Epicurean Philosophy

Post by “Cassius” of March 25, 2026 at 12:33 AM

Thank you Tau Phi.

Many of our EpicureanFriends participants arrived here after traveling through Stoicism - myself included. Many open-minded people read the Stoic materials and it's probably a good means of exposure for us to at least occasionally engage at appropriate times.

I have avoided skirmishing with the committed Stoics in the past, but I think we need at least a couple of articles setting out the ultimate points for those who are new to the study. The articles that are specifically anti-Epicurean and relatively high-profile - such as this one by Pigliucci on Substack - probably deserve individual attention.

In the future where specifically anti-Epicurean articles appear, i want to at least consider publishing a public response. I try to monitor the internet for new articles, but this one got past me for almost a month. As people see articles that deserve attention I will appreciate it if they will let me know by public thread or private message.
